ADG Acquisition Holdings LLC has bought AFO Imaging Inc., a Tampa company that does business as **Advanced Diagnostic Group**.

Financial terms of the purchase were not disclosed.

Advanced Diagnostic, headquartered in Tampa, is a provider of magnetic resonance imaging (MRI) and X-ray medical imaging services, specializing in Florida personal injury protection business in the northern and central part of the state.

The company, previously majority owned by Banyan Mezzanine Funds and **Harbert Mezzanine Partners**, had filed for Chapter 11 bankruptcy protection in 2008, citing a drop in revenue in part because of changes in Florida's personal injury protection law.

Hyde Park Capital Advisors LLC in Tampa served as the investment bankers and financial advisor to Advanced Diagnostic.
